

Terms of Service

Effective from 4 October 2026 · soslive.endorbit.hu · Magyar változat: soslive.endorbit.hu/legal/felhasznalasi-feltetelek.pdf

1. Provider and acceptance

The SOSlive service (the soslive.endorbit.hu website and the SOSlive Android and iOS mobile apps, together: **SOSlive**) is provided by Magyar Bertalan Márton, sole proprietor, Hungary (tax number: 55238205-1-33, registered address: **[REGISTERED ADDRESS]**, e-mail: info@endorbit.hu) (the **Provider**).

By using SOSlive (signing in or using the mobile app) you accept these terms and the [Privacy Policy](#). If you do not agree, do not use SOSlive.

2. The service

SOSlive lets you share live video, your location, messages and images with people you choose in an emergency. The data is stored in your own Google Drive; the Provider's server handles only the data needed for sign-in. An event page can be opened by anyone who has the link that the mobile app sends to the recipients you specified.

Important: SOSlive is not a substitute for emergency services. In an emergency, always call your local emergency number (**112** in the EU). SOSlive does not notify ambulance, police or any other authority.

SOSlive depends on the mobile network, internet connection, the state of your device (e.g. battery, permissions), Google's services and your stream provider. The Provider does not guarantee that the video, your location or the notifications will always reach the recipients, or reach them without delay.

3. Account

- You need a Google account to use SOSlive. SOSlive is not intended for children under 16.
- You are responsible for the security of your Google account and your device.
- You can revoke SOSlive's access in your Google account at any time (myaccount.google.com/permissions) and request deletion of your SOSlive account at info@endorbit.hu.

4. Your responsibilities

- Use SOSlive only lawfully and for its intended purpose.
- You are responsible for making sure that the people you notify and the people you share your events with have agreed to this, and that recording and sharing (especially when other people appear in the recording) complies with the law, including rights to one's image and voice.
- Anyone who has an event link can open it. Share it only with the people it is meant for.
- You must not misuse SOSlive, in particular: for deliberate false alarms, for harassing or intimidating others, for tracking other people's location or activity without their knowledge, for

distributing unlawful content, or for disrupting the service.

5. Content and data

- Your events and settings are stored in your Google Drive and remain yours. The Provider has no access to them.
- The SOSlive apps read and write this data only to provide the service, at your request.
- The processing of personal data is described in the [Privacy Policy](#).

6. Third-party services

SOSlive uses services of Google (Google account, Google Drive), the map provider (OpenStreetMap) and the stream provider you choose (e.g. YouTube, Twitch or another). Their own terms apply (e.g. [Google Terms of Service](#)). The Provider is not responsible for their operation.

7. Fees, availability, changes

SOSlive is currently free of charge. It is provided “as is” and “as available”. The Provider may develop, modify, suspend (e.g. for maintenance) or – with prior notice – discontinue SOSlive. Discontinuation does not affect the data in your Google Drive.

8. Liability

To the fullest extent permitted by law, the Provider excludes liability for damages arising from the use of, or inability to use, SOSlive, in particular for delays or data loss caused by the factors described in section 2 (network, device, third-party services). This limitation does not apply to liability for damage caused intentionally or by gross negligence, or for damage to human life, physical integrity or health (Section 6:152 of the Hungarian Civil Code), and does not affect the statutory rights of consumers.

9. Termination

- You may stop using SOSlive at any time; you can request deletion of your account and delete the data in your Drive yourself.
- The Provider may suspend or delete an account if the user seriously or repeatedly violates these terms.

10. Changes to these terms

The Provider may change these terms and will announce material changes on the website before they take effect. Continued use of SOSlive after the change means you accept the changed terms. The current version is always available at soslive.endorbit.hu/legal/terms-of-service.pdf.

11. Governing law, complaints

These terms are governed by Hungarian law. Questions and complaints can be sent to info@endorbit.hu. Disputes fall under the jurisdiction of the Hungarian courts; consumers may also turn to the courts of their place of residence and to consumer dispute resolution bodies, and mandatory consumer protection rules of their country of residence remain unaffected.
